

March 26<sup>th</sup> 2019 – Salon d'honneur – Bordeaux Campus Pey Berland

# Cancer and the Tumor Microenvironment: Development, Evolution, and the Microbiota

## Session 1

### Putting cancer in its temporal and spatial context

Chair

Violaine Moreau

BaRITOn, University of Bordeaux

9h30 – 10h30

**Ezio Laconi**

*Department of Biomedical Sciences,  
University of Cagliari, Italy*

*Development versus evolution in the pathogenesis  
of cancer*

10h30 – 11h30

**Elena Rondeau**

*ImmunoConcept, CNRS, University of Bordeaux  
Understanding cancer progression and its control:  
An analysis of immune contribution to metastasis  
causality*

11h30 – 12h30

**Jean-François Moreau**

*ImmunoConcept, University of Bordeaux  
Is there a place for autoimmunity in  
immunotherapies ?*

12h30 – 14h30

Lunch break

## Session 2

### Microbes, the microbiota, and cancer

Chair

Jean-Luc Feugeas

CeLIA, University of Bordeaux

14h30 – 15h30

**Christine Varon**

*BaRITOn, University of Bordeaux  
Helicobacter infection, cancer stem cells and  
gastric cancer*

15h30 – 16h30

**Thomas Pradeu**

*ImmunoConcept, CNRS, University of Bordeaux  
How can the microbiota influence tumor  
progression and cancer treatment?*

16h30 – 17h30

**Discussion**

Hosted by Maël Lemoine

ImmunoConcept, University of Bordeaux

*This workshop has received funding from the European Research Council (ERC)  
under the European Union's Horizon 2020 research and innovation programme - grant agreement n° 637647 – IDEM*
